Standalone Apps

Common Data Service for Apps

Data Connectors

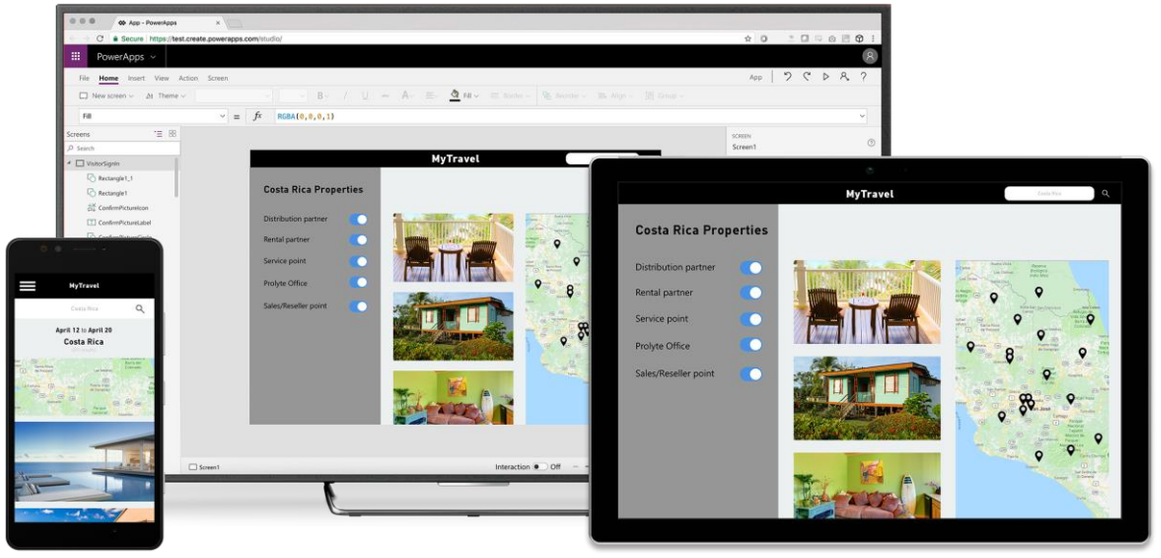
An application Platform as a Service (aPaaS) for citizen-developers to build high-productivity business apps

Build and consume solutions for web and mobile with PowerApps

- Build highly customized task- and role-based canvas apps with data from one or multiple sources
- Generate immersive model-driven apps, starting from your data model and business processes
- Consume fully accessible apps across web and mobile, embedded or standalone, on any device



Business users

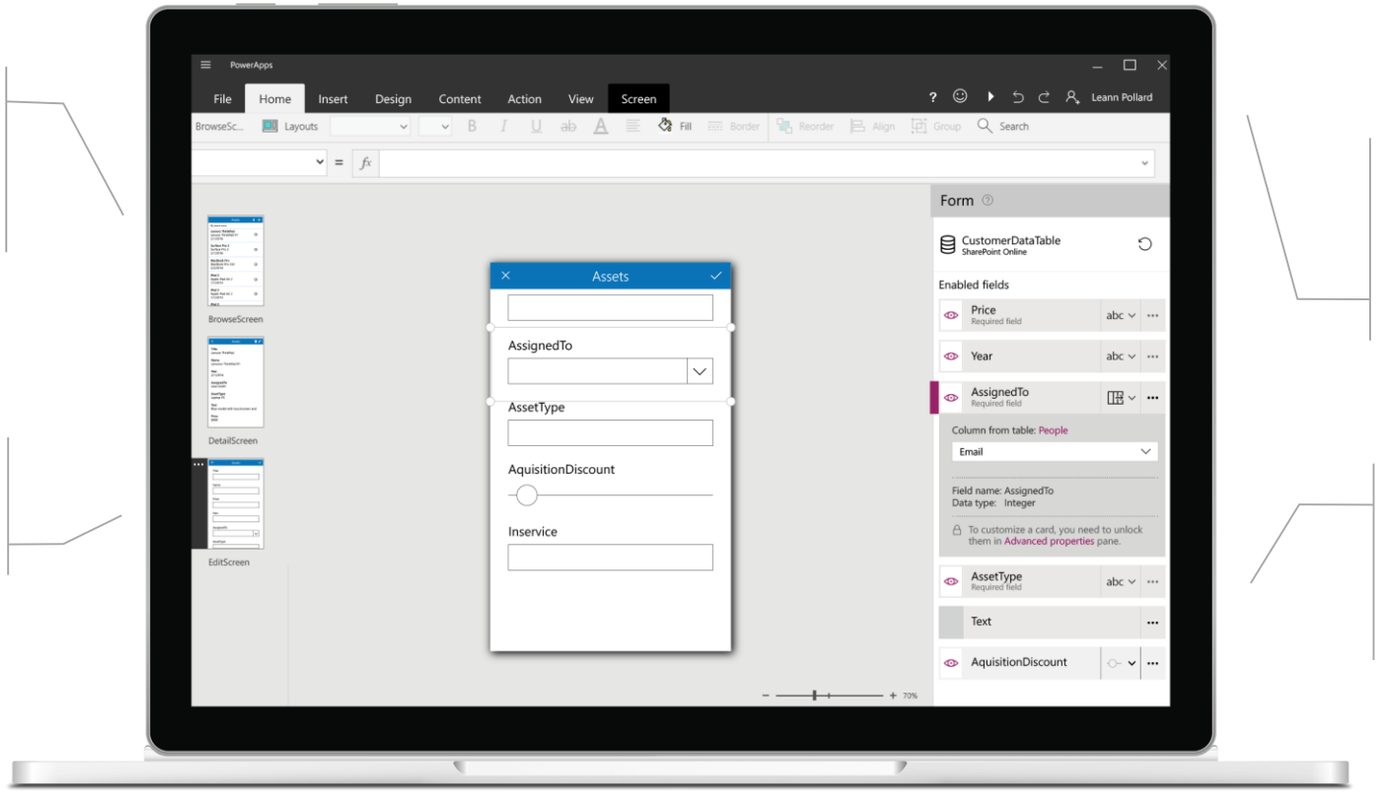
Non-developers

Developers

Build useful apps without writing code

Craft forms and screens

Take advantage

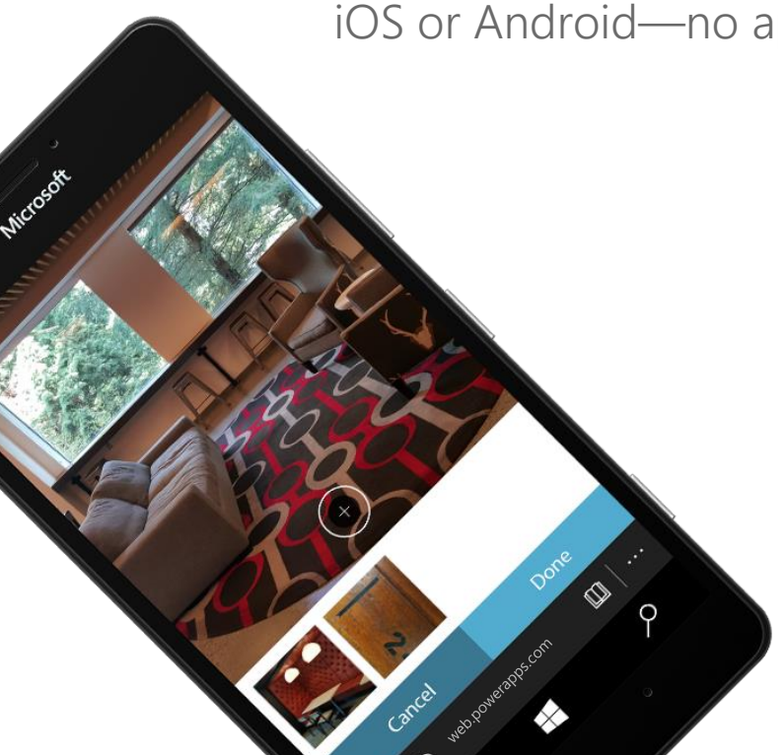


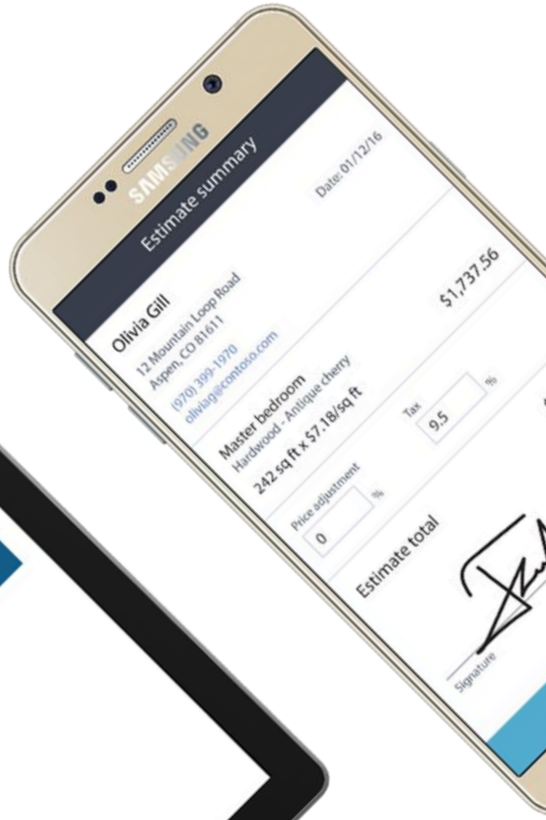
Build business logic

Extend the capabilities

Publish apps instantly for web and mobile

Get apps to your team when and where they're needed, whether that's on the web, iOS or Android—no app store required.





It’s easy to
get started…

What is Office 365?

It's the tools you need

Be more creative and achieve what matters with Outlook, OneDrive, Word, Excel, PowerPoint, OneNote, SharePoint, Microsoft Teams, Yammer, and more.

It's always up to date

With an Office 365 subscription, you get the latest Office apps—both the desktop and the online versions—and updates when they happen.
