

Power BI

....

Portugal

A faint, light blue background graphic consisting of a network of interconnected dots and lines, resembling a molecular structure or a data network, spread across the entire slide.

// our goals

We are a group of **Power BI users** and **data enthusiasts**, interested on leveraging data analytics in real business scenarios.

Our group will cover several areas, from **Data Engineering, Data Modelling, Data Visualization**, to more advanced analytics such as **Machine Learning, Storytelling** or **Open Data**.

// our meetups

We usually have a **general presentation** about important **news, market updates** and **meetup content** and **next meetups**.

Then we'll offer a mix of introductory **talks, workshops, live demos** and **deep dive** sessions from experts as well.

We usually meet monthly on the **first Tuesday of the month**.

Microsoft Power BI Guided Learning

Start your learning journey with this sequenced collection of courses, and understand the extensive and powerful capabilities of Power BI.

Getting started

-  Get started with Power BI using Microsoft Learn 47m

Getting data

 Overview of Power BI Desktop	4m
 Getting started with Power BI Desktop	9m
 Connect to data sources in Power BI Desktop	8m
 Clean and transform your data with the Query Editor	8m
 More advanced data sources and transformation	8m
 Cleaning irregularly formatted data	8m

Modeling

Power BI Desktop February 2019

Reporting

- Updates to the new filter pane (preview)
- More filter pane formatting
- Accessibility improvements for the new filtering experience
- Cross-highlight on a single point in line charts
- Word wrap on titles
- Update default visual interaction to cross-filter
- Rounded corners for visual borders

Data Connectivity

- Microsoft Graph Security
- Guidanz' BI Connector for OBIEE
- MarkLogic
- Kronos Workforce Dimensions
- SurveyMonkey
- Qubole Presto
- Quick Base
- Sagra Emigo

Analytics

- Key Influencers visual (preview)
- Insights questions in Q&A
- Auto-generated suggested questions for Q&A explorer
- Improved Python & R script editor
- Custom visuals
- Additional purchases for custom visuals
- Advanced Donut Visual
- Advanced Combo Visual
- Advanced TimeSeries Visual
- Advanced Network Visualization
- 3AG Systems – Line chart with absolute variance
- Summary Table
- KPIimg
- Ultimate KPI Card
- Violin Plot

Other

- Improved Live connect & Direct Query error messages

New functionality "Sync Slicers" in Custom Visual visualizations.

I tested the "Sync Slicers" new functionality and it's a very good option but it doesn't work with a Custom Visual, for example, Chiclet Slicer. Chiclet Slicer is a Custom Visual visualizations widely used and it will be very important that this new functionality work in it well.

87 comentários · Custom Visuals · Denunciar...

 **EM DESENVOLVIMENTO** · Ranin Salameh (Program Manager, Microsoft Power BI) respondeu

Hi,

We are working to fully support sync slicers in the custom visuals platform.

The only supported case (for now) is when custom viz slicer is using one data field. it is a limitation and we are working on it.

Thanks,

Ranin

Power BI Premium Deployment & Management Whitepaper

Tailoring help and support for Power BI users

The screenshot displays the Power BI Admin portal interface. The left sidebar contains navigation links: Home (preview), Favorites, Recent, Apps, Shared with me, Workspaces, and My Workspace. The main content area is titled 'Admin portal' and lists various settings categories: Usage metrics, Users, Audit logs, Tenant settings (selected), Capacity settings, Embed Codes, Organization visuals, Dataflow settings (preview), and Workspaces. The 'Help and support settings' section is active, showing the 'Publish "Get Help" information' toggle set to 'Enabled'. Below this, there are input fields for 'Training documentation', 'Discussion Forum', 'Licensing requests', and 'Help Desk', each with a sample URL. At the bottom, the 'Apply to' section has radio buttons for 'The entire organization' (selected) and 'Specific security groups', along with a checkbox for 'Except specific security groups'. 'Apply' and 'Cancel' buttons are at the bottom right. A dropdown menu on the far right lists links: Getting started, Learn, Community, Get help, Power BI for developers, Privacy & cookies, Accessibility shortcuts, and About Power BI.
