// Agenda

19:00 - 19:15 - Power BI News

19:15 - 20:00 - Feel at home in Power BI Service - by Bruno Ferreira

20:00 - 20:15 - Coffee break

20:15 - 21:00 - Power Platform 101 - Learn what PowerBI + PowerApps + Flow + O365 can do for your organization - by Sandro Pereira & Rui Romano

A faint, light blue background graphic consisting of a network of interconnected dots and lines, resembling a molecular structure or a data network, spread across the entire slide.

// our goals

We are a group of **Power BI users** and **data enthusiasts**, interested on leveraging data analytics in real business scenarios.

Our group will cover several areas, from **Data Engineering, Data Modelling, Data Visualization**, to more advanced analytics such as **Machine Learning, Storytelling** or **Open Data**.

// our meetups

We usually have a **general presentation** about important **news, market updates** and **meetup content** and **next meetups**.

Then we'll offer a mix of introductory **talks, workshops, live demos** and **deep dive** sessions from experts as well.

We usually meet monthly on the **first Tuesday of the month**.

Power BI Desktop May 2019

<https://powerbi.microsoft.com/en-us/blog/power-bi-desktop-june-2019-feature-summary/>

Reporting

- Updated pane design
- Visual level filters for slicers
- Sorting for the performance analyzer pane
- Conditional formatting updates for formatting options
 - Visual background and title colors
 - Card colors
 - Gauge fill
- Visual header tooltips
- Table & matrix total label customization
- Sync slicer support for hierarchy slicer
- Consistent font sizes across visuals

Visualizations

- Personalized visualization pane (preview)
- SCADAvis.io Synoptic Visual
- PAFnow Process Mining
- DualCard

Analytics

- Key Influencers visual updates (preview)
 - Key Influencers with Live Connect to Power BI datasets
 - Key Influencers accessibility
 - Support for Cloud RLS
- Manage aggregations dialog accessibility

Data Connectivity

- Connect to shared and certified datasets
- Common Data Service connector is now generally available
- Azure Data Explorer connector is now generally available
- Enhancements to the Cosmos DB connector Entersoft

Modeling

- New DAX comparison operator: ==

Other

- Improvements to M Intellisense

Workspace "Viewer" role

Announcing the New Viewer Role for Power BI Workspaces

Lukasz Pawlowski
Principal Program Manager

 June 25, 2019

 Share

 Tweet

 Like

We're excited to announce we've started to roll-out the **Viewer role** for the new workspace experience, perfect for users who need to view content within workspaces without the ability to modify it.

The feature roll-out has started and should complete for commercial cloud

The Viewer role gives a read-only experience to its users. They can view workbooks in the workspace, but can't browse the datasets or dataflows wherever you would previously use a classic workspace set to "Member BI content"

MBAS 2019 Sessions

MBAS 2019 On-Demand Featured Sessions: Power BI Roadmap and Vision

Miguel Martinez
Sr. Program Manager

June 20, 2019

The [Microsoft Business Application Summit](#) is behind us but there's still a lot of great content we can share with the community. We recorded almost every session on site, and we made them available in our [community MBAS Gallery](#).

This is the first of a series of weekly posts where we will feature Power BI sessions from the summit and we are starting with the [Roadmap and Vision session](#) by Arun Ulag, Amir Netz, and a great group of demoers from the Power BI team.

Some of the new
new look, Share
